Photo and Media Release

Permission to use a child's image in school materials

In plain language

You choose, separately, where your child's photo may appear. You may say yes to some places and no to others, and you may say no to all of them. Saying no changes nothing about your child's place at the school, their activities, or how they are treated. You can change your mind at any time.

CHILD AND PARENT

Parent or legal guardian: _____

Relationship to child: _____ Phone: _____

YOUR CHILD'S NAME

WHAT YOU SHOULD KNOW BEFORE SIGNING

1. **How long this lasts.** This permission stays in place while your child is enrolled, and for materials already produced, after they leave. It does not permit new uses once your child is no longer enrolled.
2. **You can withdraw it at any time.** Tell the school office in writing, by letter or by email to **office@kindergartenprepinc.com**. We will stop using the photo in anything new, and remove it from our own website and our own social media accounts, within **ten business days**.
3. **What withdrawal cannot undo.** We can remove a photo from places we control. We cannot recall printed material already distributed, and we cannot retrieve anything another person has already copied, saved or shared. Anything posted to a social media platform is also subject to that platform's own terms.
4. **No payment.** Neither you nor your child will be paid for the use of a photo, and the school does not sell photographs of children.
5. **What we will not do.** We do not publish a child's last name, home address, or any detail identifying where a child can be found at a given time. We do not use AI-generated images of children.

Saying no to any or all of the above will not affect your child's enrollment, participation, or treatment at Kindergarten Prep in any way.
